AREND'S KUMYSS

MILK CHAMPAGNE

Should be the refuge of the physician in all those cases of debility in which prompt improvement of the general tone is imperative. Kumyss is the greatest and most easily digested food, and as such the best nourishment for a weak stomach; at the same time, through the presence of ferruginous which Kumyss undergoes, medicinal qualities are developed, which we rarely look for in materia medica. It arrests, vomiting, nervous states of dyspepsia. Kumyss acts like a charm, promptly relieving all the distressing symptoms of such cases. When the stomach rejects all else, Kumyss is retained and assimilated, affording the patient nourishment, strength, and sometimes, and, as a tonic-nutritive, nervous and refreshing sleep follows. In enteric, hemorrhoidal, gastric, and bilious fevers, Kumyss is the best diet. In retarded fevers and dangers and after the fever, Kumyss has conferred by the advantage over drugs, in that it can never do harm. To those an invincible stomach with Kumyss is an absolutely which an intelligent physician entrusts to this diet. But not only to convalescence should Kumyss be resorted to. It should be the chief remedy for a weak stomach under all circumstances. The Grenoble Gendarmerie with a new glimpse of Kumyss a that will immerse the digestion and be more firm. Ladies would to less nervousness, more vigorous, and healthier complexion if they would add to their daily diet a few glasses of Kumyss.

Send for treatise on Kumyss. Beware of imitations.

Arend's Kumyss is not sold in Drug-gists but in containers only.

SUNDAY, APRIL 28, 1895.

Passport rules in St. Paul reached rock bottom yesterday. It costs long the Agent's knife for all tenderer regardless of classification.

The total imports of general merchandise at New York during the last week were valued at $6,750,000, and of dry goods at $1,400,000.

JUDGE ADDISON WHITE, Associate Justice of the Supreme Court of the District of Columbia, has declined the nomination by the President, to take effect on the expiration of his present commission.

It was officially announced yesterday that the receipts of the recent Grant Statue exceeded $100,000, and that there would be a surplus after all bills are paid.

D. W. Purvis yesterday sold to Edward D. Young the ten Board feet, with improvements, at the northeast corner of Chicago avenue and Dearborn street, for $70,000.

At last advices of the gale at Pascua, the storm center is somewhat pronounced. Some of the city, the only serious casualties being the tumor product of the French Council. Admiral Jouett telephone that it was positively necessary to assign the plans to protect property and prevent riots. He will have the city ever to the established authority the moment they make their appearance.

The police guards and attendants in charge of Gen. Grant's cast believe that their patient will survive the ordeals of both. The tissues did not take the usual carriage this morning, as the weather was too cold.

The French representatives has spoken in favor of the Argentine Free Cities, and the negotiations over the acquisition of the Rio Janeiro-Bragança have been resumed with every prospects of an amicable settlement of the dispute.

Secretary Herbert has authorized the work of "calking" by specialists by brother to a steamer in New York City, while Cong. the Virginia Cabinet against which no charges must be made to the department, or to be suspended on general principles.

Dispatches at the Union Stock Yards unanimously deny the story that a number of cattle suffering from anthropomorphobia had been killed in the pens. They have had no cases of infectious disease since Sept. 15, when a few head suffering from Texas fever were killed.

It is reported that Count Arbuthn, the Austro-Hungarian Minister of Foreign Affairs, has expressed the opinion here that war will be the issue of the strained relations existing between Great Britain and Russia. Austrian newspapers are of the opinion that England is certain to desire the assistance of an alliance with Turkey in the event of war with Russia.

Letters are in the mail of the striking conductors since the line of the Illinois & Michigan Canal are still reported. Yesterday a mail of the men attacked the laborers at Hegan's quarry, near Lockport, drove them off, inflicted several severe beatings, destroyed several shots, destroyed some property, and retired to their homes without being molested by the brigade now activities.

Gen. Gordon, the Governor-General of Soudan, has been ordered by the Czar to give due consideration to a detailed memoir giving a plan of campaign in Afghanistan. It is believed that Gen. Gordon, in the event of war, will be placed in supreme command of the armies operating against India. There are now 75,000 Russian troops in Poland. Of these 15,000 are under orders for immediate movement to Siberia.

A movement has been set on foot by members of the First Regiment, I. N. G., to erect a new armory at the corner of Jackson avenue and Fourteenth street. The scheme includes a large hall capable of accommodating 15,000 people, to be used for public gatherings and great musical and dramatic events. The estimated cost is $500,000. The soldiers expect to secure private capital by the issuance of bonds covering the entire cost.

Gen. Edward J. Dunn, retired, was yesterday appointed Governor of the Soldiers' Home at Washington, vice Col. Daniel B. Sweeny, deceased. Gen. Dunn, Gen. Robert Catlin, retired, was appointed Deputy Governor, vice Capt. W. Lyman, Fifth Infantry. These changes go into effect May 15, when the officers selected will join their respective regiments. Army officials express themselves as pleased with the action of the Trustees in placing retired officers in charge of the home.

The Prince and Princess of Wales had a most enthusiastic reception at Londonderry yesterday. The town was crowded with flags and bunting. Immense crowds were in the streets through which the royal party and the procession passed. Fifty a dozen addresses were presented. In his reply the Prince thanked the people for the very cordial reception he had been given, and concluded by saying he hoped that at no distant date the Princess and himself would be able to revisit Ireland. The Dublin Freeman Office has been notified that the Prince and Princess intend to visit Cork in May.

The Chicago produce markets were more active Saturday, and stronger, though without much support from outside buyers. The news from Europe was considered sufficiently warlike to make the best shorts buy more contracts at the beginning of the week, and they preferred to cover. As compared with Friday puts closed 1c more higher, and 1c more higher, made 2 more higher, closed 1c more higher, were 1c more higher, and 1c more higher, are 1c more higher. Barley was steady, and focused 1 cent better. During last week our shipments of wheat amounted the receipts to 180,000 bushels, and the receipts of corn exceeded the shipments by 80,000 bushels. The purchase of hog-products since the close of February included about 27,000 bags, against 224,000 in the same time last year, and 251,000 in the year 1893.

It is reported that the French Council of Ministers has made a united protest against the occupation of that city by the United States forces. Why to should have made it, however, is not very clear. This country is bound by its treaties to keep the harbor mouth open, and M. de Lanessan and the French Government have more than once declared that the French interests in that place are only those of a private speculative company. If the French Government disclaims any official authority over that "mark of wreck" by what right does its representative make any protest until the United States has in some way invested the authority or endangered the interests of his Government? France is in a fair way to make herself disliked. She has got enough to attend to without picking a row with this country. It would be a very dangerous row for her.

Since the recent decision of the Supreme Court there has been a marked growth of unfavorable sentiment in certain portions of Virginia where the "obligation" have been strong investors. The discussion to which there are regarded a part of the State debt cases brought over from before the recent decisions of the Supreme Court that such affects are in violation of the constitutional provision forbidding any State to impair the obligation of contracts. In some respects the agitation has its unfavorable side. The State Auditor has instructed none of the taxpayers in the State Treasury to refuse coupons if tendered in payment of taxes, but not to levy on the property after such mode of payment is made. If anyone this is an attempt to take advantage of the Supreme Court ruling that a suit against an officer to compel him to accept the coupons would be a suit against the State and would not, therefore, be sustained, while it is an effort to avoid any other decision holding that after a tender of coupons in obligation is made it would be an act of personal trespass to levy on the property. Under this ruling coupons may be used in payment of taxes year after year and, if the State still moves the taxpayers must keep [illegible]. On the other hand the Tax Collector will not receive them, but after such a tender is made no levy can be enforced against the property. It is evident this scheme will not operate to release the taxpayers from their obligations, for the Supreme Court of Virginia from her recent decision of the Supreme Court. No taxpayer needs, in fact, to be under suspicion of dishonesty who refuses to pay coupons for taxpaying purposes, since they cannot be used for taxpaying purposes, since they are receivable by the State only for the purpose of redemption. The question is likely to be settled by the Legislature, which will probably be asked to pass some act, and, though refusal to do so will subject a repudiationist to the imputation of a repudiationist.

A correspondent of the Pall Mall Gazette calls for education to a school which is to succeed. It is pointed out on the part of France to get a football in Brussels on the last date in January. The scheme is good for a succession, which is now being organized with King Carlos, for a succession of the elder sister of Queen Victoria to a Frenchman or French sympathy, the scheme being submitted to some day with the many monthly statistical bureaus. The Paris Government and the King. The succession is to be in perpetuity, at a yearly income of one and a half lots of wagons, but every contribution. The other are to be worked by French engineers and workmen, and they are to be elected the gendarmes of a strong force to prevent them. The Gazette's correspondent says, as an ever Frenchman would ever submit such an amount of money as would be required with the assurance that the other is possible would convey the other paying morning expenses and the support of an armed force, it is evident the scheme must be a problem out.

The last Sunday edition of The Tribune before the 1st day of May is always generously patronized by owners and real estate agents who desire to rent or sell property before that date, and never before has the rush of advertisers been so great as in this issue. For the benefit, and to enable us to duplicate the subscribers of a single line of news or gossip, The Tribune on a spare sometimes to issue a paper of seventy-eight full pages. The work of getting out such an extraordinary edition has been immense, but it has been done cheerfully in the belief that patrons will appreciate the difference between this journal and those which sacrifice the rights of the reader to the demands of the advertiser. The classified small advertisements, which are at all times a good index to the business condition of the city, today occupy seventy-two columns of The Tribune as over the pages, as compared with sixty-one columns Sunday, April 21, 1894, showing a gain over the unexpected increase of eleven columns. The ground have has been shared by all classes of displayed announcements, the result being that today's Tribune stands as a source of genuine satisfaction to every Chicagoan proud of the city and its metropolitan prosperity.

THE BOARD OF TRADE MOVING.

The great final event of this week will be the initiation of the new Board of Trade building, which is to be announced by a presidential escort Tuesday evening and a formal opening Wednesday morning.

The event is one to excite all the people of Chicago and take a particular pride. The new structure is one of the most magnificent buildings ever erected by the genius of commerce. It represents an investment of nearly two millions of dollars and it is worthy of the building art. It is constructed to withstand fire, frost, and tornadoes; nothing short of an earthquake will ever shake its foundations. It constitutes a new landmark where for Chicago, as it is located in a district which had been neglected by men of enterprise. It has accomplished a great and useful object by crowding out the baleful district of the city, which has been altogether too much restricted for several years, and it assures the extension of that district so far south as Twelfth street, when the new Board of Trade will be about the center. The vast influence of the institution has been demonstrated by the erection in the neighborhood of enormous business blocks, many of which have been completed and occupied before the opening of the Board of Trade building, and many more of which are in rapid process of construction. The district within a few blocks surrounding the new building will be a short time be one of the investment and most substantial business centers in the world.

It is customary to regard the Board of Trade as the home of speculation. It is that to a considerable extent, but it is also something more than that. The vast building will be the center of the harvest operations to feed gratitude to all the world. It will be the great grain and meat market for Europe and America. It will represent the capital and enterprise which control and direct the movement of the crops. It will be the audience of exchange between the producers and consumers. The same processes will contribute to speculations, fights, and all to the health of the men engaged in these great transactions, and to an enduring investment to the prosperity of Chicago. The Board is, therefore, fully justified in celebrating the opening, and will have the good will and sympathy of Chicago and the commercial classes of the whole country in this notable event.

THE PRESIDENTIAL CHOICE.

A new republican name is to be coming up on the Egyptian horizon. Wyndham is still speaking in glowing of spread and defying like a young imbecile to be seen, and will probably depend upon the Guardian which other and more soldier clouds will take. The French Government is reported to have acquainted its official relations with Egypt and to have called its Consul home, brought on her account to feel ill with Cairo. It has been a question, under certain circumstances, what action to England.

The cause for the action does not appear to very clear. One report mentions that a grave act of the suspension of the French newspapers, the Egyptian expulsion, which it will be remembered, the Egyptian Government mentioned, and which was also tolerated by Turkey, but as the former has offered to make negotiations, which ought to be satisfactory to France, it is not likely that an occupation a matter would be considered sufficient cause for the rupture of the relations between the two countries. Another report mentions the Suez Canal agreement as the cause, but as France has not any way in the settlement of that agreement and carried her policy as against England, this does not seem to be sufficient. If France, however, is disposed to pick a quarrel with England in the matter of Egyptian affairs any pretext would be sufficient.

France has been dissatisfied with the English occupation of Egypt and for growing between them ever since the resignation of Jules Ferry and his National party. The late Ferry, [illegible] of the past which [illegible] by giving to the occupation of certain parts of the west shore of the Red Sea and of the Straits to Eastern who has made to England, and Abyssinians not been reading other indications that she would not be slower to a present with England when a fitting opportunity presented itself. That opportunity has come. The dominant words, in fact, to be more complete of ghastly color than ever for lingering pertinacity, since they mean to wait four long years, and, though refused to be subdued, they would suffer at the hands of a superior.

FOR SALE BY ALL DRUGGISTS.

Healthy Digestion, A Clear Complexion, Bright Eyes,

A sound body, an elastic step and look that are keen, a happy state of mind, in the fullest sense of Dyspepsia and the multitudinal ills which result at the ordinary unknown cause.

AREND'S BEEF, IRON AND WINE WITH CHINCHONA,

(Peruvian Bark), Etc.

The Most Successful Tonic of the Age.

It promptly invigorates the Brain and Nervous System, excites the activity of the Assimilating and Secretory Glands, thereby improving the Appetite, purifying and enriching the Blood. Being skillfully made from the best materials, it is as pleasant to the taste as rich and fruity wine, adapting it especially to those delicate organizations which resist all the ordinary tonics.

Pint Bottles, $1.00.
Quart Bottles, $1.50.
One-Gallon Jugs, $5.00

Sent promptly by express upon receipt of price.

Beware of Imitations. No other preparation of same or similar name is of the same composition or possesses the same medicinal qualities. See that the name, label, or cork is not changed.

THAT NEW ARMORY.

Is Now Looked on if the Substitutes Were Accepted—What the Committee Is Doing.

The Elaborate Plans for the Grand Hall and Administration Building—The Location.

It Will Cost $250,000 and Will Be Built and Run by a Stock Company.

Another step was made in a recent issue of THE TRIBUNE of the plans which have been made in accommodation for the Fine Arts[illegible], I. N. G., for the erection of a new armory in the neighborhood of Lafayette avenue and Stockton street. These plans have now advanced to the stage where it has been thought expedient to have a perspective of the new work, and upon the strength of that prospectus to begin an active campaign for ways and means. The location of Lafayette avenue, abutting on Stockton street and adjacent to the Union Stockyards from the east to Loomis Boulevard, has been chosen, not as a ballot question, but upon as a basis upon which to found the new armory building to protect boys[illegible] regiment of infantry, and since have been known as the permanent armory location to the projectors thus far[illegible].

The present armory on Jackson street was erected for the regiment in 1871 by the Home Mutual Life Insurance Company, in the fourth year of regimental existence. It passed at the time for a handsome structure and suited to the needs for which it was erected, and the regiment took it under a ten years' lease. This lease has a little more than three years to run, and the regiment has already out considerable room that long before the building will be wholly inadequate for its requirements. One of the prospectus gives the present idea of adapting an armory to discover the growth, and of the many purposes to which it is to be put. $50,000 00

In Cash we must realize out of our large stock before Saturday next. The object of this EXTRAORDINARY SALE is twofold: on the one hand we desire the cash funds and on the other hand we want EVERY MAN, WOMAN, and CHILD in Chicago and the Northwest to talk about the enterprise of the

BEE-HIVE.

We want the people as well as our competitors again to admit that the Bee-Hive is the great and only

GENUINE BARGAIN HOUSE,

As they have been compelled to admit this fact on several former occasions, such as our famous 75c sale, and COMPETITORS SALE.

A few words need be said about the style and kind of bargains we advertise below. We admit candidly that we have selected for this advertisement items which were and are

MOST STRIKING,

But it would be a great mistake to suppose that only the advertised goods are reduced in price; because we are aware that the public is well posted in regard to the value of merchandise, and we alone would be the sufferers by such proceeding.

To illustrate still further we give an example of how we proceed: Our $3.00 Corsets have been reduced to $1.50; our $2.00 Corsets to $1.00; and our 75c Corsets to 35c each. We advertise only the last item, i. e. the Corsets at 35c, because it is the MOST STRIKING, though by no means as great a bargain as the $3.00 Corsets for $1.50.

Dress Ginghams worth 40c we reduced to 25c per yard; Ginghams worth 25c we reduced to 12½c per yard; Ginghams worth 8c will be sold at 3c per yard; but we advertise only the last item.

Corsets worth $4.00 we reduced to $2.00; 500 bone Corsets, sold everywhere at $2.00, we reduced to 75c. One Dollar Corset will be 35c. In this instance we selected for advertisement the 500 bone Corset at 75c because it is the MOST STRIKING Bargain in Corsets though by no means the BEST BARGAIN, etc., etc., etc.

EVERY ARTICLE HAS BEEN REDUCED!

The Bee-Hive Never Deceives, Hence Their Marvelous Success.
